At **Vidrexport**, we believe true excellence in glass bottles begins with a deep commitment to quality at every stage of the production process. That is why each bottle is designed and produced using cutting-edge technology and refined through meticulous attention to detail. Strong capabilities in customization, guided by sustainable production principles, define every bottle we create.

VIDREXPORT
BOTTLE MAKERS

The **Bruma Alta** bottle is inspired by the Portuguese coastal horizon, where the sea mist paints the landscape like a canvas. It is a tribute to the Portuguese people, their sailors, and their history. More than just a bottle, this design is a symbol of heritage and pride.

BRUMA ALTA

TAILORED BY YOU

Conceived as a blank canvas, this versatile design allows our clients to customize the mold, using it as a base to create a truly distinctive bottle.

700ml / ≈580g / 86% Labelable
